## Contents

### GENERAL PROBLEMS OF THE FIBRE AND TEXTILE INDUSTRIES

7  Tendencies on World and European Cotton Yarn Markets (results of market structure analysis)  
   Z. Wysokińska

14  Representation of Regional and Branch (Textile Industry) Interests in the Structures of European Institutions  
    M. Greta, K. Lewandowski

21  Ecolabelling as the Confirmation of Application of Sustainable Materials in Textiles  
    E. Targosz-Wrona

26  Selected Aspects of the Forensic Examination of Textile Traces  
    J. Wią-Gubala

### RESEARCH AND DEVELOPMENT

30  Influence of Fibre Formation Conditions on the Properties of Nanocomposite PAN Fibres Containing Nanosilver  
    T. Mikolańczyk, G. Szparaga

37  Preparation of Keratin-Modified Chitosan Fibres  
    D. Wawro, W. Sępielski, K. Wrzecionowska-Tosik

43  Scale Effect on Jute/Cotton Fibres and their Blended Yarns  
    Z. Xia, J. Yu, L. Cheng, L. Liu, W. Wang

46  Study on Improving the Thermal-Wet Comfort of Clothing During Exercise with Assembly Fabrics  
    H. Wu, W. Y. Zhang, J. Li

52  Functional Upholstery Materials for Protection Against Electrostatic Risk  
    M. Cieślak, S. Wróbel, I. Kamińska, M. Lao

59  Positioning Mechanism in a Knotting System: A Case Study  
    M. Topalbekiroğlu, L.C. Dülger, A. Kireçci

64  Motion Rule of Electronically Pattern System on High Speed Warp Knitting Machine  
    F. Xia, M. Ge

68  Simulation of Production Line Balancing in Apparel Manufacturing  
    S. Kursun, F. Kalaoglu

72  High Speed Needle Punching Machine with Cylindrical Journal Bearings  
    S. Strzelecki, H. Kapusta, Z. Czaplicki, K. Ruszkowski

77  Electrospinning and Electrospraying Techniques for Nanocomposite Non-Woven Fabric Production  

82  Optimum Water Jets Inclination Angle for Better Tensile Strength in Hydroentanglement Process  
    M. S. Ndoro, J. Xiang-yu, C. Ting, Y. Chongwen

87  Influence of Structural Characteristics on Liquid Aerosol Filtration in Multilayer Nonwoven Fabrics of the Spunlace Type  
    T. Jankowski

93  Comparison of the Effect of PET Fibres' Surface Modification Using Enzymes and Chemical Substances with Respect to Changes in Mechanical Properties  
    I. Kardas, B. Lipp-Symonowicz, S. Sztajnowski

98  Effect of Corona Discharge Treatment of Polyester Fabrics on their Adhesive Properties  
    S. Brzeziński, S. PolowskińDi Kowalczyk, I. Karbownik, G. Malinowska

### FIBRE & TEXTILE ART

103  My Unique Way of Warping  
    W. Cygan
